

NORTHWEST MISSOURIAN

NORTHWEST MISSOURI STATE COLLEGE

VOL. 46—NO. 24

Maryville, Missouri

June 29, 1960

Dr. C. H. Thate Is to Replace Dr. Leon Miller

Dr. Charles H. Thate, who is teaching at Southern Illinois University this summer, will replace Dr. Leon Miller as chairman of the NWMSC education department in August.

DR. CHARLES THATE

The new faculty member received his bachelor of science in education degree and his master of science degree from Southern Illinois. His doctor of education degree was granted this year by the University of Missouri.

Dr. Thate served in 1953 as assistant principal of the laboratory school and associate professor of education at MU. He was director of guidance in 1958-59 and was instructor in education administration last year.

He is married and the father of a daughter and two sons.

Scholarship Group To Coordinate Awards Program

A scholarship committee has been appointed by Dr. J. W. Jones, president, to coordinate the various scholarship programs on the campus.

The committee will deal with all local and national fellowships, scholarships and awards. Loans will not come under its jurisdiction, however.

Dr. C. E. Koerble, dean of students, is chairman, and his office will maintain the necessary records. Other members are Everett Brown, director of field services, James Johnson, librarian, and D. F. Peel, member of the English department.

The committee plans to set up a uniform procedure to provide assurance that all worthy students will be considered for awards.

Money can be lost in more ways than won.

Varied Program Is Scheduled For July 4 Show

The fifth annual Maryville Chamber of Commerce fireworks display will be presented the evening of July 4 in the NWMSC stadium. Eight set pieces and about 120 rockets, star shells and aerial pieces will be included in the program.

Featured will be a green cascade wheel of changing colors of the rainbow, to be followed by "Cleopatra's Fan." A comedy piece, "Maude, the Mad Mule," in which a mule is stung by a bee, will be shown. "Niagara Falls" and a mystery piece, "Radio Set," will be on the program.

A giant satellite which gyrates in the air and sends out 12 whistling missiles will be set off. Climax of the show will be a massiev "Statute of Liberty" display.

Approximately 12,000 persons jammed the stadium for the program last year. The same company, Wald's of Kansas City, is in charge of this year's attraction.

Douglas Dempsey is chairman of the committee making arrangements for the display.

Negative Hours to Be Given for Absences

One semester hour of negative credit will be assessed on all students who are absent and unexcused from class the day, or fraction of a day, before or after the July 4 holiday. The recess will begin at 4 p.m. July 1 and end at 7:30 a.m. July 5.

Myrl Long Attends Summer Institute At Oregon State

Myrl Long, member of the NWMSC physical science department, is among 50 college chemistry instructors attending a National Science Foundation summer institute at Oregon State College, Corvallis.

The institute is being held July 27-Aug. 5 with teachers from 22 states participating. Each received \$75 per week, tuition and fees and travel and dependent allowance.

The six-week course includes special work in teaching and research techniques, analytical chemistry, inorganic chemistry and selected topics in physical chemistry.

Chinese Golden Rain Tree In Bloom on NWMSC Campus

The ornamental Chinese Golden Rain Tree, situated near the walk in front of the Administration Building, is again in bloom. Following the array of golden-yellow blossoms which now cover the tree, bright yellow-green seed capsules will appear. These will turn brown in late summer. The oriental tree, which is about 25 years old, was pre-

sented to the late Uel W. Lamkin when he was president of NWMSC by the late Walter Williams, then president of the University of Missouri. It was originally obtained from China. *Koelreuteria paniculata* is the biological name of the Golden Rain Tree. It is one of five species of *Koelreuteria* found (Continued on Page Four)

TIME FOR A CHANGE—Carolyn Foxworthy, Girl Friday for the Northwest Missourian staff, removes the sign from the Administration Building office as the newspaper headquarters are moved to the Classroom Building. Lucile Raney, managing editor, looks on.

Northwest Missourian Moves to New Office

"The old order changeth, giving place to new. . . ."

Another change will have taken place at NWMSC by the time you read this, a major change to the Missourian staff.

Friday, June 24, the Missourian moved to a new office in the Classroom Building, leaving Ad. 215 to the new Dean of Instruction.

The new Missourian office is located on the ground floor of the building. The room, on the unfinished side of the corridor, has been built especially for a newsroom.

There is a separate advisor's office, areas for editorial staff, business and circulation and morgue. A darkroom is in one corner. Tables and counters designed for newspaper work have been built by the college carpenter shop.

The Missourian has occupied Ad. 215 for over 20 years.

It is the successor to several papers that have been published at NWMSC.

According to "Behind the Birches" by Miss Mattie Dykes, the first student publication was the May Morning News, which appeared May 1, 1908. Apparently only two issues were published.

The next paper was the Normal Index which began publication Feb. 2, 1910, and continued for about two years. It was followed by the Pragmatist; most of the records of this publication have been lost.

The first issue of the GREEN AND WHITE COURIER, the predecessor of the MISSOURIAN, came out on Nov. 4, 1914, and it continued until Sept. 27, 1926. The first adviser was M. Gordon Neale of the education de-

partment; the first editor was Miss Myrtle McPherron, now Mrs. Fred Naeter, Cape Girardeau.

George Colbert was adviser from 1915 to 1917, when Miss Beatrix Winn, now Mrs. M. E. Ford, organized the first class in journalism and became adviser.

In 1918 The Stroller made his appearance for the first time and has continued, despite some interruptions, to the present. The column probably reached its highest triumph in 1930, when the Stroller was used as a motif for the Tower.

During the school year of 1923, Miss Winn was absent on leave for study abroad, and Miss Mattie M. Dykes took charge of the paper. On Sept. 29, 1924, the GREEN AND WHITE COURIER came out as a full-size paper.

In December of that year Miss Winn resigned to marry M. E. Ford, and Miss Dykes took charge of the paper. Sometime after this, the office became Ad. 215.

The Missourian has undergone some changes in format and policy since then. For a while during the depression it was published as part of the then MARYVILLE DEMOCRAT FORUM. In World War II it was published in a miniature size.

From February, 1945, to May, 1953, it was the size of The Maryville Daily Forum, appearing bi-monthly. In September, 1953, the present tabloid size was adopted, and the paper has been published weekly as nearly as possible since then.

Miss Violette Hunter was made adviser to the paper in 1945 and continued in that position until August, 1959, when D. F. Peel was appointed. Under Miss Hunter's guidance the Missourian gained nationwide prominence through winning various contests; the plaques and trophies are on display in the news room.

Through the years the Missourian has grown with the college. The staff has maintained a policy of accurate reporting. Mr. Peel, adviser, states: "The Missourian wants to be the voice of the Bearcats."

COLLEGE GRADUATE IS ALBANY CHURCH PASTOR

Hiram Lilley, 1957 graduate of NWMSC, has been appointed pastor of the Albany Methodist Church. He recently received a bachelor of divinity degree from Iliff School of Theology, Denver, Colo.

Lilley is the son of Mrs. Edith Lilley, Mailland. His brother, Robert, was graduated from NWMSC in May.

NORTHWEST MISSOURIAN

Published weekly at the Northwest Missouri State College, Maryville, Mo., September through July, except during examination periods and after vacations.

Entered as second class matter, November 9, 1914, at the Post Office at Maryville, Mo., under the act of March 8, 1879.

All That Jazz

How's That Science Sense?

Scientists are admired not only because of their accomplishments, but also because they have a knack for clear, concentrated thinking. Have you the ability?

Get nine or 10 out of the 15 right and you have more than a common sense of science . . . 11-12 right and you've engineered a score that indicates you have considerable talent for logical scientific thought . . . a 13-15 score rockets you to a topflight position, puts you in the exclusive orbit of those with amazing sense of science. Time limit for quiz: 30 minutes.

1. Let's begin with an easy one. Suppose sometime you say to your friend, "I've never lost any money in my life," and your friend replies, "Ah, I've lost twice as much as that in my life." How much has he lost?

2. And another easy one. What's the only word in the English language which, when printed in capital letters, reads the same upside down as it does rightside up?

3. Here's one to test your sense of observation. If you made a business deal with the Omiske people in the northern part of the land of Alaska what would a slekcinnel gain amount to?

4. Be careful with this one. If you screw an electric bulb into a socket by turning the bulb clockwise with your right hand, which way would you turn the socket with your left hand in order to unscrew it while holding the bulb stationary?

5. In your chest of drawers are 10 green socks and 16 brown socks. A storm has left your home without electricity and you cannot see the colors. How many socks must you take out to be sure of getting a pair that match? (Think a second before you reach for a pencil!)

6. If 78 players enter a tennis tournament for a singles championship, how many matches have to be played to determine the winner?

7. If I add 1,000 to a certain whole number, the result is actually more than if I multiplied the number by 1,000! What is the number?

8. A freight train one mile long goes through a tunnel that is one mile long. If the train is traveling 15 miles per hour, how long does it take to pass through the tunnel?

9. Every hour on the hour a train leaves Cactus City for Dustville while another leaves Dustville for Cactus City. The trip between the two cities takes exactly two hours. When a train goes from Cactus City to Dustville, how many of the trains going in the opposite direction will it meet?

10. Ready for a harder one? If a brick balances evenly with three-quarters of a pound and three-quarters of a brick, what is the weight of a whole brick?

11. Suppose I point to my companion and say, "Brothers and sisters I have none, but this man's father is my father's son." What is the relationship of my companion to me?

12. Can you arrange the digits from one to nine in a square, so that adding horizontally, vertically or diagonally, the total will always be the same?

13. Imagine yourself on a ship sailing from Argentina to New York. A storm is raging just as you cross the equator, and all passengers are confined to their cabins. The only things in your cabin besides your personal belongings are the air conditioner, a small thermometer and the sink with stopper and running water. Using one or more of these three, how can you tell the exact moment your ship crossed the equator?

14. Here's an old favorite. A farmer was on his way to the country fair with the prize head of lettuce, his finest rabbit and his big fierce dog. Between his farm and the fair, he had to cross a river in a rowboat. The boat was very small, with room for only one of the others besides himself. Now, we know he couldn't leave the dog alone with the rabbit because the fierce dog would eat the rabbit. He couldn't leave the rabbit with the lettuce because rabbits always eat lettuce. How did he manage to get all three of them, safe and uneaten, over to the other side?

15. All quizzes should end with a love story. In the land of Gerania lived three lovely young maidens—Darlissabel, Deirdre and Dreen. They were going to marry the three dashing young men mentioned in the statements below. Who will marry who if:

- Thaddeus is a cattle rancher.
- Deirdre is not engaged to the pearl diver.
- The medicine man's future bride is not Dreen.
- Thornton is engaged to Darlissabel.
- Thump is the pearl diver.

Solutions in next issue.

Fire Burn; Glue Bubble Turning on the Heat Can Make Trouble

"Where's the fire?" they were asking last Thursday in the Administration building, for the halls were filled with the smell.

First they checked the biology department. Nope, not guilty.

Then chemistry: innocent! At last the true culprit was discovered.

The Missourian staff quietly spending its last afternoon in its old pressroom (mailing newspapers, writing a newspaper, packing) looked up to see a ring of accusing faces in the doorway.

"What ARE you burning?"

"Nothing."

It seems that pictures come back from the printers in the form of metal plates glued to wooden blocks. The plates can be detached from the blocks by heating. When hot, the glue smells—phew!

Firmly shutting the door, the inquirers went away.

The Missourian staff turned off the heat and went out for coffee.

Moral: If a newspaper can't find any news, it can always make its own.

Coed Crowns Younger Sister Queen of Festival

Margie Guest, 18-year-old daughter of Mr. and Mrs. Glen Guest, Union Star, was crowned queen of the Mailland Blue Grass Festival last Thursday night. Her older sister, Martha Guest, last year's queen, crowned her.

Miss Guest, 18, plans to enter NWMSC this fall as a freshman. Her sister will be a junior in September. This year's queen was chosen from a field of 39 contestants in the 21st annual event.

Named first lady in waiting was Twila Patterson, Rosendale; second, Joyce Laderoute, Savannah; and third, Martie Shores, Fillmore.

'Girl in Red Swing' Scheduled to be Shown As Den Movie Attraction

"The Girl in the Red Velvet Swing," starring Joan Collins, Ray Milland and Farley Granger, will be shown in the Bearcat's Den at 7:00 p.m. July 6.

It is a true story of Evelyn Nesbit, the first Gibson Girl, and the sensational murder of architect Stanford White by playboy Harry K. Thaw. The country was shocked back in 1906, but now the story invites wide-spread conjecture and controversy.

The movie is a Fox production in color and cinemascope.

Two Former Students Enlist in Army Together

Two former students of NWMSC, Marlin Slagle and Richard Berg, have enlisted together for a period of three years in the U.S. Army. The youths are both 19, and are 1959 graduates of Maryville High School. They left June 13 to take basic combat training at Fort Leonard Wood. After basic they will attend construction trade school.

LITTLE MAN ON CAMPUS

Placement Bureau Is Important To Graduating Students, Teachers

In a college where young teachers are being trained, the placement bureau of the field services department performs an important function. That function is to help teacher candidates find jobs and help schools fill vacancies.

It is not an easy task, and the work involved is something more than the individual student realizes. Everett W. Brown, director of field services for NWMSC, states that his "work is never done." His duties bring him directly into contact with school officials of this territory. He has many calls from schools out of state asking for teachers who will be graduating soon and can teach in certain fields.

Mr. Brown has a full-time staff working in his office. The job of these people is to take

care of the filing and record keeping relative to placing students. Working under Mr. Brown are Mrs. Esther Sellers, Mrs. Esther Nardin, Mrs. Azelene Evans and several students who help part time.

A graduating student who wishes to teach or an experienced teacher seeking a new position may go to the bureau and register his name and other necessary information. A set of references must be filed, and the person must be prepared for an interview with his prospective employer. The interview may be held at the college, or the student may have to travel to the school where he has applied.

If the prospective teacher meets the approval of school officials, he is notified through the placement office, and a contract usually follows.

Students to Take English Exam

The English Proficiency Test will be given at 9:50 a.m. July 13 in the college auditorium. Dr. Charles E. Koerble, dean of students, has announced.

The examination is one hour long and consists of writing a paper on a subject usually presented in a film. The main goal of the student should be to write in an interesting, consistent style with a good organization of ideas.

The English Proficiency Test is given to all undergraduates when they have completed 45 hours of work.

It is a comprehensive examination to assure the faculty that the student may spontaneously and extemporaneously use the English language in written form correctly and adequately.

Five members of the faculty, drawn from departments other than English and speech, read and evaluate the papers. Students failing the first test should counsel with Dr. Frank W. Grube before taking it again.

All students are required to pass the test before registering for directed teaching courses or for graduation with any degree.

Bermuda Shorts Are Allowed for Summer

Bermuda shorts may be worn on campus during the summer session, according to a notice from Mrs. Martha Bladt, dean of women. Shorts are permitted in the administration building, the library and classes where not allowed in fall and spring sessions. They may not be worn to the evening meal or in the Union building on Sundays.

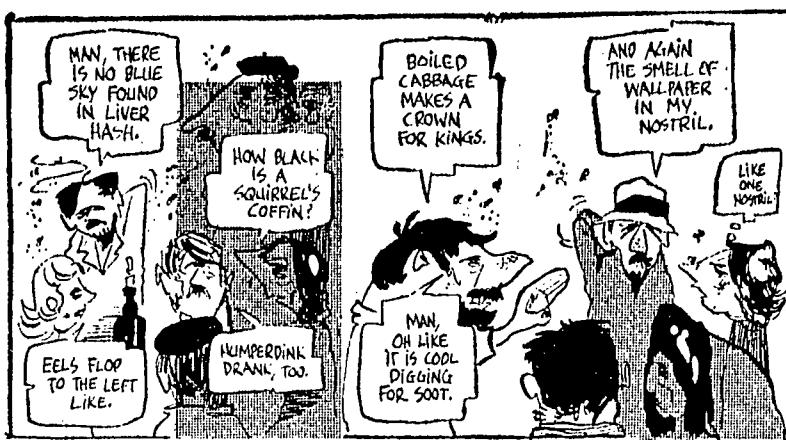

Discarded Books Are Being Sold

Many discarded books which are in good condition are being sold for 25 cents in the textbook room at the library, according to James Johnson, librarian.

Listed below are a few of them: Hunt, "Social Science"; Johnson, "American Government"; Faulkner, "Art Today"; Hart, "Intermediate Algebra"; Kettlekamp, "Teaching Adolescents"; Commission on English Curriculum, "Language Arts for Today's Children"; Bowden, "Man's Physical Universe"; Thorpe, "The Psychology of Mental Health."

Textbook room hours are 7:30-8:30, 12:30-1:30 Monday through Friday.

ARNOLD

Weddings, Engagements

Miss Marian Idle, Mansfield, O., is engaged to J. D. Hammond, Maitland. The wedding will be held at the First Methodist Church in Mansfield Aug. 20. Mr. Hammond is a 1955 graduate of NWMSC.

Miss Marilyn Sue Manley and Robert Arthur Powers, both of Maryville, were married May 29. Mrs. Powers was graduated from NWMSC in May and Powers is now attending NWMSC majoring in mathematics. He recently was separated from the Navy.

Miss Louise Ciotti and William H. Snyder, jr., Rome, N.Y., are engaged to be married July 2. Mr. Snyder is a 1958 graduate of NWMSC.

Miss Paola Lister, Hopkins, and Maurice Kyle Mires, Maryville, were married June 5 in Hopkins. Both are seniors at NWMSC. Mrs. Mires is working toward a degree in home economics, and Mr. Mires is completing a major in industrial arts.

Miss Shirley Kolby, Council Bluffs, Ia., is engaged to Kenneth Kates, also of Council Bluffs. Miss Kolby is now attending NWMSC majoring in English.

Miss Judith Lea Hullman, Coin, Ia., became engaged to Vance Whitehead, Shenandoah, Ia., May 26. Miss Hullman is a freshman, and Whitehead is serving with the Army at Fort Sill, Okla.

Miss Claudia Molby, Creston, Ia., and John Perrenoud, Clearfield, Ia., were recently pinned. Miss Molby is a junior this summer, and she is an elementary major. Perrenoud is a graduate of Iowa State University, who is doing graduate work at NWMSC this summer. Perrenoud is a member of Alpha Chi Rho fraternity at Ames. He is teaching industrial arts at Clearfield, and Miss Molby will teach at Adel, Ia., this fall.

Miss Myrna Lee Arms and Palmer Allen Lawson were married May 29 at the Maryville Methodist Church. Mrs. Lawson will teach business and English at Fillmore High School this fall. The groom has completed a three-year tour of duty with the U.S. Navy and now is attending NWMSC.

Miss Janice Ohrt, a junior at NWMSC majoring in vocational

home economics, was pinned to Don Francis, who is bank examiner for the Federal Treasury Trust Department. Mr. Francis is a charter member of Tau Kappa Epsilon chapter in Maryville.

Miss Carolyn Elliott was engaged to Jim Wells Apr. 7. Miss Elliott is a senior majoring in elementary education at NWMSC, and Mr. Wells is employed at the Armour Packing Co., St. Joseph.

Miss Bonnie McCumber, Maryville, and Larry Gray, also of Maryville, were married June 19 at the Maryville Methodist Church. They will reside in Kansas City, where Mr. Gray is employed. Mr. and Mrs. Gray both are former students of NWMSC.

Miss Norma Pride and Ronald Dougan were married in a ceremony held June 19 at the Guilford Reorganized Church of Jesus Christ of Latter Day Saints. Mr. Dougan attended NWMSC last year. The couple will reside in Maryville, where both are employed.

Miss Jean Harriett Richey, Villisca, Ia., and Jack Orville Yearous, New Market, Ia., were married June 5 at St. John's Lutheran Church, Clarinda, Ia. The couple is residing in Maryville. Mrs. Yearous will return to NWMSC as a junior in the fall. Mr. Yearous is employed at Booth's "66" Service Station.

Miss Rose Marie Sinak, Grant City, and Edward Leon Treese, Ravenwood, were married June 15. Mr. Treese is a former student of NWMSC.

Miss Trudi Walker, a junior this summer, has announced her engagement to Jim "Tiger" Marley, who was graduated from NWMSC this spring. Miss Walker is a member of Alpha Sigma Alpha sorority, and Mr. Marley was historian for TKE last year. The couple is planning an Aug. 12 wedding in Kansas City, after which they will honeymoon in Puerto Rico, where Mr. Marley will be an instructor of mathematics. Miss Walker is from Maryville, and Mr. Marley is from Bedford, Ia.

Miss Virginia Danner, Kansas City, and Jack Lee Clemmons, North Hollywood, Calif., were married June 1 in North Hollywood. The bride attended Morehead State College, Morehead, Ky. Mr. Clemmons attended NWMSC and was graduated from the Kansas City University School of Pharmacy, Kansas City.

Miss Pat Williams, a graduate of Fulton Junior College, is engaged to Mervyn Michael Copeland who will be graduat-

Band Marches On—Camp Cancelled

Neither band camp or pre-registration are offered this year for those who wish to join the marching band. The first marching practice will be held at the first regularly scheduled class meeting.

Those who wish to join the marching band will registered for it.

Dr. John Smay says that all competent students are invited to participate in marching band.

Successful participation in marching band satisfies the one hour physical education activity requirement.

Donald Sanford to Give Two Recitals in Michigan

Donald Sanford will give viola recitals July 6 and 21 at the University of Michigan, Ann Arbor.

The recitals are part of the requirements for the doctorate degree, for which Mr. Sanford is working this summer.

Mrs. Sanford will accompany him in both recitals.

ed from NWMSC this summer. The wedding will take place Aug. 14 in Fulton. Mr. Copeland is from Skidmore, and he was TKE secretary last year. The couple will be teaching school at Glenwood, Ia., this fall.

Miss Sylvia McConkey and Aaron Thompson, both of Barnard, were married June 17 at the Methodist Church in Barnard.

Film Preview Offered To Students by IMB

The fourth preview of educational films will be offered by the Instructional Materials Bureau at 7:00 p.m. June 30 in Room 2 of the library.

Luke Boone, director of IMB, plans to continue the previews for the remainder of the summer session.

No admission is charged.

SIGMA SIGMA SIGMA PICNIC IS SCHEDULED FOR JULY 13

The annual Sigma Sigma Sigma summer picnic will be held the afternoon of July 17. Susan Grube, Maryville, is making arrangements for the event. Details will be announced later.

Informal Dance Schedule

An informal dance will be held on the deck of the Union Building at 7:30 o'clock tonight. In case of rain, the dance will be held in the den.

God knew what he was doing when he put man's eyes in front of his head. Where you're going is more important than where you've been.

Help Wanted!

The Instructional Materials Bureau is in need of two moving picture projector operators. Prevailing student wages will be paid.

Ray Miller Teaches Physics For Summer

Ray Miller, former instructor at Tarkio College, is teaching physics this summer at NWMSC. He replaces Robert Davis, who has resigned.

Mr. Miller obtained his bachelor of science in education de-

RAY MILLER

gree in 1957 from the University of Missouri. He has a double major in mathematics and physics. He has done work on his master's degree at MU. Originally from Rolla, Miller has done research at the Bureau of Mines and Metallurgy in Rolla.

Mr. Miller will teach physics at Hickman High School, Columbia, this fall.

Earl Baker to Succeed Paul Turner as NWMSC Coach

Earl H. Baker, 35-year-old former Cameron High School coach, will succeed Paul Turner as NWMSC football mentor effective Aug. 1. As coach of the Cameron Dragons for the past seven years, he has lead teams to two conference championships—the Northwest Missouri Conference and the Grand River Conference.

In over-all play, his gridsters piled up 51 wins, 8 losses and four ties. Baker favors single-wing formations.

Prior to coaching at Cameron, Baker coached for three years at Hardin, Mo., high school. He is a graduate of Missouri Valley College, where he lettered in football from 1946 through 1950. While playing there in 1949, he was named all-conference guard.

The new grid mentor gained his master's degree from Northeast Missouri State College, Kirksville, in 1957. He served with the Navy in World War II before entering college. He saw action in the South Pacific and was separated with the rank of petty officer.

Baker is married and the father of two boys and two girls. The family attends the Baptist Church.

Baker will fill a vacancy left by the resignation of Turner, who has coached the Bearcats for the past two years. Turner will become football coach at Newton, Ia., High School. Besides coaching, Baker will be instructor in health and physical education at NWMSC.

GRADUATES ENROLL FOR FRENCH COURSE

Misses JoAnn Outs, Maryville, and Rosemary Coats, Stanberry, recent graduates of Northwest State College, have enrolled for five weeks' course in French at the University of Colorado, Boulder. They are staying at the French House.

Miss Outs will teach French at Rock Port and Miss Coats will teach at Weston during the 1960-61 school term.

EARL BAKER

Remodeling, Repair Work Being Done

Remodeling and repairs are order of the day on campus as the administration prepares for an all-time high enrollment in September.

Final touches to the Health and Physical Education building are being added with the construction of a retaining wall, new stairways for both front entrances, and a walkway connecting the stairways. The retaining wall and the sides of the stairways are being faced with Roman brick which is a decorative type brick. The walkway connecting the stairways will be six feet wide and five and a half feet away from the retaining wall.

The southwest entrance into the stadium will be closed to the public and used only by maintenance crews. A new entrance will be constructed at the southeast corner for patrons of athletic events.

A new chemistry laboratory is being built and the old laboratory is being remodeled

Crowded Tennis Courts Point Up Need for Construction Program

Crowded tennis courts are a growing problem on our campus. Many students upon arriving at the court find it in use and with a large waiting line.

Many of these people using the courts are not college students and by rights should yield to the student who has paid an activity fee for use of the court. This is not done, however, unless the college team is in need of practice.

Why this problem? Because the college courts are the only ones in the city of Maryville that are in good enough shape to be used.

Jack Pitzer, sports writer for The Maryville Daily Forum, recently has been pushing for construction of new courts, and Dr. Frank Grube, college tennis coach, has been advocating new facilities for the past several years. Both men have gained much support in their campaigns but have hit a dead end when it comes to financing the project.

A block of four courts complete with proper surfacing and fences would cost an estimated \$7,000 to \$8,000. This cost could be lessened considerably to \$2,500 or \$3,000 with the use of city labor and blacktop surfacing. Location would pose no problem with ample space available at Beal Park.

Speculation has been raised as to the possibility of several local service organizations that are interested each contributing the cost of one court, thus accumulating enough funds to build a large block of courts. If four clubs would contribute \$1,000 each, a block of four courts containing adequate construction material could be erected.

—Paul Roach

with new lighting, plumbing, store room, and office.

The faculty lounge in the Administration Building is being moved from its present location to where the speech offices were previously, and the art department will use the lounge for added classroom space.

Campus streets, which seem to have suffered the worst from the severe winter, will be oiled and chuck holes filled as soon as the weather clears and the streets dry enough to enable crews to begin work.

Final Examinations May Be Taken Early By Guard Members

Students who will attend National Guard encampment may obtain permission to take final examinations early, according to a notice from the office of Dr. Robert Foster, dean of administration.

Encampment is to be held July 22—Aug. 7. Students who request consideration for early completion of courses may take final examinations prior to July 22 providing they have completed other course requirements.

ALPHA SIGMA ALPHA PICNIC IS JULY 10

Alumni and actives of Alpha Sigma Alpha sorority will meet July 10 for the annual summer picnic. It will be held at the home of Mrs. Charles Bell, Maryville. Helen Bahr is in charge of arrangements for the event.

Everyone has 20/20 vision hindsight.

Chinese Golden Rain Tree In Bloom on Campus

(Continued from Page One) in China and Japan. It reaches a height of approximately 25 feet and can withstand hot, dry weather.

The NWMSC tree is believed to have been planted as a companion to the Chinese Scholar tree, which stands opposite it on the west side of the walk.

Dr. J. W. Jones, president, presented trees grown from seeds of this tree to the Missouri State Teachers Association and to Mrs. Rosemary Chaney, president of MSTA. One tree is planted on the grounds of the MSTA building in Columbia. The other is near the Chaney home in Cincinnati, O.

Peterson Attends Washington Meet

Dr. H. D. Peterson is back on campus after attending a four-week conference of the American Association for Health, Physical Education and Recreation in Washington, D. C.

Dr. Peterson is president-elect of the Missouri association.

DR. BLACKWELL TAKES 5-WEEK COURSE AT U OF M

Dr. Dale Blackwell, member of the business department, is studying at the University of Minnesota, Minneapolis, for five weeks of this summer. The course began two and a half weeks ago.
